

DT

Create a plan of your theme park. Where will all the rides go? What else will you need at the theme park for the customers? Label your plan using a key to show the different areas.

Art

Make a model or draw/ paint a picture of a ride you like or a new ride for your theme park. Be creative!

Maths

How much will you charge people to enter your theme park? Think about the different ages of people and think about family tickets to save people money.

Look at different theme park entry prices, who is the most expensive, least expensive and what is the difference in prices?

Year 6 - Theme Parks

Science

Find out how roller coasters work. Explain in your own words or using diagrams how they work and the science behind them.

English

Design a poster advert or a leaflet to encourage and persuade people to visit your theme park.

History

When was the first fair ground ride created? Who created it? What was the ride like?

When was the first theme park created? Who created it? Where was it? Which rides were there?

Geography

Make a list of the different theme parks in the UK. Where can these be found? Find the nearest town/city it is in and also the county it is in.
