

English

1. You have discovered a new planet. Write a postcard to your family or friends to tell them all about the place.
2. You have been on the planet for five days and nights. Create a diary documenting the events of each day. You could turn the diary entries into a little booklet.
3. Write a description of the planet- remember to use a range of figurative language.

Computing

Complete research to find out as much as you can about Laika who was the first living creature to orbit the Earth. Use a word document, notes or an ipad to show your findings.

Home Learning Project

Year 5

Space

DT

Design and create a rocket that could be used to travel to your new found planet. Write instructions to explain how it works.

Geography

Use your knowledge of the solar system and planets to create a map of space for astronauts who are going to soon be travelling on an exciting mission.

Maths

Carry out a survey to find out which planet people would most like to visit. Create a bar chart to show your results and create some questions to ask about your results (What was the most popular planet? Which planet was the least popular?).

Key Vocabulary

Create a glossary of words that you have used across all of the different learning tasks. A glossary is a list of words in alphabetical order with definitions.
