NEWS/GH

17th February 2021

ACT OF LOVE AND KINDNESS....a loving message from Lily in Y1 Bluebirds.

Mum has given permission to share....the family has been extremely sad just recently at the passing away of Lily's much loved grandad.

I send mum our love

□...also, Lily, your picture has touched my heart. Grandad will be

very, very proud of you. I can offer you a Special Medal

. . . but I also feel sure you and

mum deserve lots and lots of hugs and cuddles.

Mum wrote:-

Just want to share with you how kind Lily has been. She now knows the news about her grandad going to heaven to be a special star in the sky. Although at first she was upset, she then asked if she could draw him one final picture for him to take to Heaven (he loved her pictures and she drew one every time we visited). Here is the picture she drew. I just thought it was so kind of her to still think of him...he would have liked that.

Y2 LF Penguins Snowman challenge.....yesterday Y2 Penguins shared their Minion Challenge with us....now it's their Snowman Challenge! 🧊🧊🧊 All the Sharing photos I send to parents always impress me with the smiles and sheer fun kids are having in doing their various activities.

Building a snowman is great fun...I still enjoy this activity and I'm 97!!! 🧊🧊
8 children feature in the 'Snowman' link...so here are your Special Medals-

Y5 Hummingbirds. Great writing...great...letters...great story work...Well Done to these kids:- Lilia

5EC Hummingbirds Great Work!

Super letter to a child in 2030 by Lilia. Well done!

An amazing letter to a child in 2030 by Harry. Great work Harry.

5EC Hummingbirds Great Work!

A very detailed letter from Alfie to a child in 2030, telling them all about the pandemic. Well done Alfie.

To the children of 2030,

2020 was when the pandemic had happened as you may or might not have known, we didn't go to school or see our friends (unless we were on zoom chat). We couldn't leave our homes unless it was necessary, like going to the shops or getting exercise. Only a few children got to go to school because their parents worked for the NHS or they were a different key worker. We used computers, phones or i-pads to do our work online, not many people were getting paid because they weren't able to go to work. We had two or three lock downs in England, also America had a vote for who would be the next president.

In the first lock down, we had to stay home for six months, without seeing any friends, I only saw friends by looking out the window as they walked past or going on facetime, but the good thing about the first lock down was that I got a dog to play with so I wasn't bored. We went shopping a few times, and we went on little walks on beaches every Sunday.

Then we went back to school, and we got to see our friends, but then it was Christmas holidays, and when we could finally go back to

The beginning of Kelly's letter to a child in 2030. Super start! :) Well done.

5EC Hummingbirds Great Work!

At the time you read this letter I will be 19.

The year 2020/2021 was a very different year to what is classed as a normal year. It was a very tough year for everyone in the world due to a pandemic, which is a virus/disease that spreads, in this case it spread all over the world. It was called the Coronavirus. I will explain how life changed during this time.

We had to try and stop the spread of this disease and to do this the government had to put us in lockdowns. This means we were not allowed to leave our house unless necessary, we were not allowed to go to school and had to work online from home. Shops were closed apart from shops that sold food. Cinemas, bowling, gyms, hairdressers and pubs were all forced to close. We could not leave the country. Holidays were cancelled, concerts cancelled, all professional sports were cancelled and when they did start sports again, fans could not go to the grounds to watch this sport, it was all televised instead. Adults were asked to work from home if possible, only key workers were advised to leave the house to go to work. A lot of businesses struggled through this pandemic and a lot of companies had to completely shut down forever due to not making any money because they had to close. The government did help by funding grants to businesses but this sometimes was not enough. A lot of staff

Well done Ashton, great start to your letter :)

On a morning, I was the first awake. I went down stairs to watch TV but all of a sudden, I heard a large cry from the kitchen. I went to investigate. I was so scared but I still went forward and then I heard a funny, very British accent "Oh come on is there seriously no food?", I peaked around the corner and saw a pug in the fridge. He had a big, dark top hat and a monocle with a cute bow tie. I screamed, "A talking pug!". There was an awkward silence. "Woof" the pug barked. "Don't try, I heard you speak." I exclaimed, he sighed and said his name "I'm Barry, please don't tell anyone about what you saw!" He whispered "No one can know I can speak."

Barry asked if I would like to go on journey, it was one o'clock in the morning so I thought I had plenty of time. I said yes and went on an adventure with him "Were going to Pug land!" A train emerged from the ground. We hopped on and started the trip to Pug land, the train was beautiful and I loved riding it. On the train I met Sunny the fish, he couldn't speak but I liked him. Sunny was in a fish bowl on top of a big, shiny robot body. We went past beautiful places and then we finally arrived at Pug land.

Pug land was beautiful, as we went down the tracks we saw a pug, I said hello to the pug but all of a sudden his eyes turned bright, emerald green and it said "meow." We wondered what was going on? We went further down the tracks until we saw the entire Pug nation staring at a gem, "That, that can't be good." Said Barry, the gem looked like a replication of the pugs green eyes we saw earlier. "Get me a fish, Tim" demanded a voice. We turned the corner and saw a cat. He was mind controlling the pugs with the gem!

Last week in English, we created our own narrative about finding a creature in our kitchen. Ryan tried really hard with his story. Well done!

Please keep looking after your family's Mental Health.....ideas for 'Brain breaks ' just lots of ideas to help people chill. You don't have to have poor Mental Health to try these activities...many of them are for

anyone to simply try ,have a bit of fun.....ANDchill and relax!!! (These ideas kindly sent in by Mrs Waller)

Logan Derrick - Y3 Wrens.... Well done Logan

Teacher wrote:-

I would like to nominate Logan Derrick for sharing as he continues to be on our Google classroom chats and completes all his work.....he is a wiz at Maths -here is an example of some of his Maths work .

Challenge:- has Logan managed to get every sum correct? Why not ask your own kiddie (Y3 upwards) to be the teacher?

4 Dora earns £10 for walking the dog.

Tick the money Dora is given.

5 Count the money.

6 Jack has 4 silver coins and Rosie has 5 silver coins.

Show that Jack can have more money than Rosie.

Rosie 5 5 5 5 5

Jack 50 50 20 20
