

# Assessment Criteria

# Mathematics Stage 5 (Year 5)

Place Value	1. Read, write, order & compare numbers to at least 1 000 000 and determine the value of each digit.
	2. Count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000.
	2b. Round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000
	3. Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero.
Add and Sub	4. Read Roman numerals to 1000 (M) and recognise years written in Roman numerals.
	5. Add whole numbers with more than 4 digits, including using formal written methods (columnar addition).
	5b. Subtract whole numbers with more than 4 digits, including using formal written methods (columnar subtraction).
Mult and Div	6. Add and subtract numbers mentally with increasingly large numbers. Use rounding to check answers to calculations and levels of accuracy.
	7. Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.
	8. Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.
	9. Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers.
	9b. Establish whether a number up to 100 is prime and recall prime numbers up to 19.
	10. Multiply numbers up to 4 digits by a 1- or 2-digit number using a formal written method.
Fractions	10b. Divide numbers up to 4 digits by a 1-digit number using the formal written method of short division.
	11. Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000.
	12. Recognise and use square numbers and cube numbers, and the notation for squared and cubed.
	13. Compare and order fractions whose denominators are all multiples of the same number.
	13b. Add and subtract fractions with the same denominator and multiples of the same number.
	14. Identify, name and write equivalent fractions of a given fraction, represented visually.
	14b. Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths.
	15. Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements $> 1$ as a mixed number.
	16. Multiply proper fractions by whole numbers, supported by materials and diagrams.
	16b. Multiply mixed numbers by whole numbers, supported by materials and diagrams.
	17. Read and write decimal numbers as fractions (e.g. $0.72 = \frac{72}{100}$ ).
	17b. Round decimals with two decimal places to the nearest whole number and to one decimal place.
MEASURE	18. Read, write, order and compare numbers with up to three decimal places.
	18b. Solve problems involving number up to three decimal places.
	19. Write percentages as a fraction.
	19b. Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$ , $\frac{1}{4}$ , $\frac{1}{5}$ , $\frac{2}{5}$ , $\frac{3}{5}$ and those with a denominator of a multiple of 10 or 25.
	20. Convert between different units of metric measure (e.g. km & m; cm & m; cm & mm; g & kg; l & ml).
GEOMETRY	20b. Use approx. equivalences between metric and imperial units (e.g. inches, pounds & pints).
	21. Measure & calculate the perimeter of composite rectilinear shapes in cm/m
	21b. Calculate the area of squares/rectangles using standard units, square cm/m and estimate the area of irregular shapes.
	22. Estimate volume (e.g. using 1 cm blocks to build cubes/cuboids) and capacity (e.g. using water).
	23. Solve probs involving converting between units of time.
	23b. Use all four operations to solve probs involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.
STAT	24. Identify 3D shapes, including cubes and other cuboids, from 2D representations.
	25. Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles.
	25b. Draw given angles, and measure them in degrees.
	26. Identify: angles at a point and one whole turn (total $360^\circ$ ); angles at a point on a straight line and $\frac{1}{2}$ a turn (total $180^\circ$ ); other multiples of $90^\circ$ .
STAT	27. Use the properties of rectangles to deduce related facts and find missing lengths and angles.
	28. Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.
	29. Solve comparison, sum and difference problems using information presented in a line graph.
STAT	30. Complete, read and interpret information in tables.
	30b. Complete, read and interpret information timetables.
