

## Teddy's Day at School!

Today is May day (May 1st) and I got to go to school with Mrs Young and meet lots of new friends. I was really excited that I was finally going to school.

We made shapes out of salt dough then carefully put them in the oven to cook. Once they were cooked we painted all the shapes and now they are our very own Pocket Hugs to leave on the doorsteps of our loved ones. Also we made cards to go with our Pocket Hugs to give our loved ones with a message inside.

After having a super lunch with my new friends we did some more exciting activities!
