

Parent Message

Hi Parents. Keep Safe.

First of all, over the next few days - starting tomorrow (Friday 7th August) you will be receiving a series of emails giving you further information about our plans for the return to school in September.

Final confirmation of entry/ exit times will be with you on Tuesday 11th. (Parent consultation (optional) closes on the 9th)

Reasons to be Proud:-

A special mention to Abbie H - soon to be in Y4

She has given hair to the Princesses' Trust for the second time this summer and we are all extremely proud of her kind heart and commitment!

Attached are photos of before and after.

Anxiety/Mental Health:-

Following on from my previous email, Miss Harrison, our lead SENCO, has sent me this link to help families.

I can only empathise that all our planning for September has safety and the wellbeing of everyone - children, staff, parents - as the absolute priority.

I heard today that ,nationally, possibly at least 1 in 3 children may have real anxiety / mental health issues about returning to school - in our school that could be over 200 children.

This link gives free publications to download.

With all that's going on regarding the preparations for September, just thought I'd give you an update on our 'Healthy Schools Crusade ' - this is planned to continue on our return...physical health and mental health issues all part of our plans.

The sponsored bike rides for all ages - originally planned for the Summer term- will, at some stage during 2020/21 still go ahead. Children will not miss out on helping our chosen charities or from helping the hospital children's wards and children's units.

St Andrew's continues to reach out to the wider Community.

Don't forget, updates on my 'raising awareness' cycle challenge and spreading our 'Gift of Love' can be found on our website under '**Community - 1250(2500) Bike Challenge.**

This week I passed the 3,000 mile mark - remember,I'm keeping going until schools return to some sort of normality.

Last week's link is:
